UNAUDITED INTERIM FINANCIAL REPORT FOR THE FOURTH QUARTER ENDED 30 NOVEMBER 2016

(B) EXPLANATORY NOTES PURSUANT TO MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

1. Review of Performance

For the current quarter ended 30 November 2016, the Group reported a revenue of RM17.07 million and profit after tax of RM1.69 million, as compared to a revenue of RM24.54 million and profit after tax of RM0.80 million recorded in the preceding year corresponding quarter. The Group recorded a lower revenue for the current quarter mainly due to the slow down in sales of the Property Development segment. However this decrease was offset by higher revenue and profit after tax reported by the ICT and TIS business segments. As a results the Group posted an overall improvement in the current quarter's performance.

For the current financial year, the Group posted a revenue of RM47.42 million and profit after tax of RM1.15 million, as compared to revenue of RM56.66 million and profit after tax of RM1.16 million reported in the preceding year. The drop in current year's revenue was largely due to lower performance recorded by the Property Development and ICT segments. However this drop is mitigated by the marked improvement achieved by the TIS segment which contributed significantly to the Group's overall improvement in current year's results.

The performance of the respective segment of the Group is summarized as follows:-

ICT Segment

Despite having posted a higher revenue and profit after tax during the current quarter as compared to preceding year corresponding quarter, overall this segment reported a drop in performance for the current year mainly attributed to lower level of sales recorded in the first three quarters of the financial year as a result of the slowdown in the demand of Telematics related products and services, compounded by the increase in material costs due to the unfavorable exchange rate has also significantly affected the profit margin.

Property Development Segment

Overall a lower performance was reported in current quarter and financial year mainly due to the lack of new sales and lower profit recognition from properties development works in progress.

TIS Segment

Improved performance in both revenue and profit after tax was achieved in the current quarter and year, as compared to preceding year. This was mainly due to higher progress billings and profit recognised from various completed projects, as well as new and on-going civil infrastructure works and projects.

Others Segment

Loss recorded during the current quarter and year was attributed to the operating costs incurred by the investment holding company. Lower loss was reported in the preceding year due to a one off export sales and profit derived by a subsidiary company involved in component trading.

(Incorporated in Malaysia)

2. Material Changes in the Profit Before Tax for the Quarter Reported on as Compared with the Immediate Preceding Quarter.

The Group posted a profit after tax of RM1.69 million for the current quarter under review as compared to profit after tax of RM44 thousand reported in the immediate preceding quarter. Improvement in profit recorded during this quarter is mainly due to higher revenue and profit contribution from the ICT and TIS business segments and share of associated companies' profits.

3. Commentary on Prospects

The current fluctuations in currency exchange rates affecting the material costs will continue to pose challenges to the Group's operations. Despite these challenges, the Group will focus on its strategic plans to expand its ICT business activities via the introduction of a new range of innovative products and services which are expected to contribute to the ICT segment's performance. In addition, the ongoing projects in the TIS segment will continue to make a stable contribution to the Group's results.

Barring any unforeseen circumstances, the Board is optimistic that the Group will continue to achieve a satisfactory performance in the next financial year.

4. Variances of Actual Profit from Forecast Profit

Not applicable.

5. Taxation

The taxation for the Group for the current financial quarter and year under review was as follows:-
